- **Market/Price Risk:** This is the possibility to experience losses due to adverse changes in market prices of securities. It is the exposure to the uncertain market value of a portfolio due to price fluctuations.
- **Liquidity Risk:** This is the possibility to experience losses due to the fund's inability to sell and convert assets into cash immediately or in instances where conversion to cash is possible but at a highly disadvantageous price.
- **Credit/Default Risk:** This is the possibility for an investor to experience losses due to a borrower's failure to pay principal and/or interest in a timely manner on instruments such as bonds, loans, or other forms of security which the borrower issued.

The Fund invests in quality assets which are evaluated under the Trust Department's accreditation process and BSP regulations. Internal risk limits, together with regulatory exposure limits, are monitored, reviewed and strictly adhered to on a daily basis.

**OUTLOOK AND STRATEGY**

The month of May started off with the national election jitters as local market players maintained a cautious stance with the yield curve steepening. Longer dated bonds rose 10 to 15 bps and short dated bonds gained 10 basis points as well. After the relatively peaceful elections, yields on the belly to the long ends rallied back gaining back losses from pre election levels. Market further rallied after being surprised on the news of narrowing the upcoming Interest Rate Corridor system. The yield curve bull flattened as the Central Bank cut its overnight borrowing rate to 3% from 4% and overnight lending rate to 3.5% from 6% while keeping the SDA rate unchanged. After digesting several announcements with the IRC and uncertainties in the global peripherals, the 3yr, 5yr and 7yr tenor bonds continued to see demand rallying further by as much as 20 to 30 bps.

The Central Bank's new Interest Rate Corridor announced the details of the scheduled auction in June. The Term Deposit facility will have 7 days and 28 days for PHP 10B and PHP 20B every week for the month to shore up excess liquidity in the financial system. The previously tenored SDA will be an Overnight Deposit Facility to represent the floor for the new IRC.
