Fund Manager's Report

The Bangko Sentral ng Pilipinas (BSP) reduced its policy rates by 25 basis points to a record low. The BSP's Special Deposit Account (SDA) rates are now at 3.84375 percent for the 14-day placement and 3.90625 percent for the one-month placement. The lower rates tempered the Philippine Peso's appreciation and lowered the BSP's cost on the SDA instruments. The market had already anticipated the rate cut and priced it in early on.

Standard & Poor's (S&P) also upgraded the Philippine sovereign credit rating from BB to BB+. The Philippines' rating is now just one notch below investment grade. Inflation in June eased to 2.8 percent year-on-year from 2.9 percent in May. The lower inflation was attributed to declining crude oil prices. The BSP July inflation forecast range of 2.6 percent to 3.5 percent is consistent with their benign outlook.

The bond yield curve had an almost parallel shift downwards month-on-month. Yields on the shorter tenors declined by 7 to 50 basis points. Yields on the longer tenors, such as the 20-year benchmark Treasury note, declined by 32 basis points, while the 25-year benchmark note declined by 40 basis points.
