### Fund Manager's Report

The PSE saw another soft trading month for trading of stocks. The PSE index fell from 6,661 level to the 6,075 level due to emerging market outflows as the market takes into consideration growing FED tapering concerns, Syria matters and US dollar currency strength. Net foreign selling reached US\$506Million which is the largest selling outflow for the year in August 2013.

Philippine stocks returns outperformed neighbors only falling by -3.9% as compared to Malaysia (-4.8%), Singapore (-8.3%), Thailand (-11.5%) and Indonesia (-14.9%). August also saw solid macro numbers with 2Q GDP at 7.5% outperforming estimates. This was driven by still strong consumer demand and expanding government expenditures.

Gaming(-11.7%), Conglomerates (-8.7%) and Banks (-9%) were among the sectors that fell in August.
