RELATED PARTY TRANSACTIONS

The fund has equity investments with Aboitiz Power (AP) and time deposits with City Savings Bank amounting to Php 3.99 Mn and Php 5.00 Mn respectively. These investment outlets were approved by the Trust Committee. Likewise, all related parties transactions are conducted on an arm's length basis.

OUTLOOK AND STRATEGY

PSEi fell 2.9% month on month reversing October's recovery. The primary reasons for the dip was another disappointing corporate earnings results season, lower than consensus GDP and an artificial drop caused by the MSCI rebalancing. Corporate earnings grew by 1.25% for the third quarter which is behind market expectations of 3 to 4% EPS growth for the year. GDP data came in at 6%, which, while an improvement from the previous quarter still came behind projections of 6.3% growth. Foreign outflows saw an acceleration as well although the outflows can be linked more towards the rebalancing of MSCI rather than a generally bad sentiment to the Philippine market. In terms of overall equity outlook, we expect a recovery for the last month of 2015 due to window dressing activities. We see the index continuing to trade the 6800 to 7200 levels until the year-end.
