**INVESTMENT OBJECTIVE AND STRATEGY**

The UnionBank Dividend Play Equity Portfolio is a peso-denominated fund that invests in dividend yielding equity securities listed in the Philippine Stock Exchange Index (PSEi). The portfolio has an equity-income/growth strategy that invests in stocks of well established companies that have a history of regular dividend payments and potential for capital appreciation. Income strategy counteracts the volatility of the portfolio.

**CLIENT SUITABILITY**

A client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

- The UnionBank Dividend Play Equity Portfolio is suitable only for investors who:
  - Are individuals of legal age and corporations with a long-term investment horizon
  - Have an aggressive risk profile
- The principal is at risk. Loss in the original investment may arise due to market fluctuations and price volatility of the securities held by the fund.

**KEY RISKS AND RISK MANAGEMENT**

You should not invest in this Fund if you do not understand or are comfortable with the accompanying risks.

Some of the key risks associated with this Fund are listed below:

- **Market/Price Risk:** This is the possibility to experience losses due to adverse changes in market prices of securities. It is the exposure to the uncertain market value of a portfolio due to price fluctuations.
- **Liquidity Risk:** This is the possibility to experience losses due to the fund's inability to sell and convert assets into cash immediately or in instances where conversion to cash is possible but at a highly disadvantageous price.

The Fund invests in quality assets which are evaluated under the Trust Department's accreditation process and BSP regulations. Internal risk limits, together with regulatory exposure limits, are monitored, reviewed and strictly adhered to on a daily basis.

**Net Asset Value per Unit**

**NAVPU over the past 12 months**

<b>Highest</b>	119.925018
<b>Lowest</b>	95.320983

**Statistics**

<b>Weighted Ave. Duration</b>	N/A
<b>Volatility, Past 1 Year*</b>	12.71%
<b>Sharpe Ratio**</b>	-1.05
<b>Information Ratio***</b>	0.08

\*Volatility measures the degree to which the Fund fluctuates vis-a-vis its average return over a period of time.

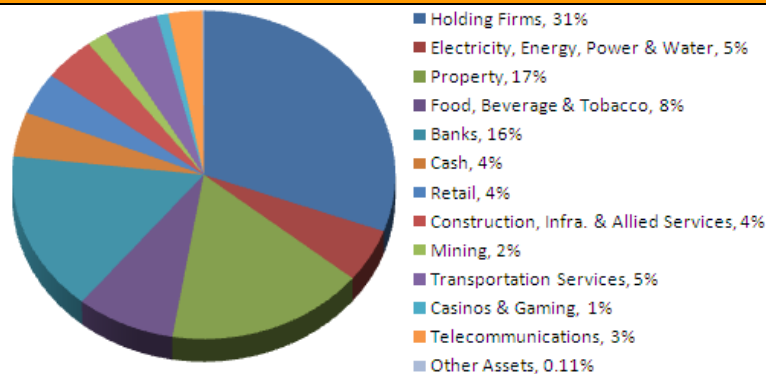

\*\*Sharpe Ratio is used to characterize how well the return of Fund compensates the investor for the level of risk taken. The higher the number, the better. (Risk Free Rate = 2.2939 %)

\*\*\*Information Ratio measures reward-to-risk efficiency of the portfolio relative to the benchmark. The higher the number, the higher the reward per unit of risk.

**PORTFOLIO COMPOSITION**

**OTHER DISCLOSURES**

**RELATED PARTY TRANSACTIONS**

The fund has equity investments with Aboitiz Equity Ventures and Aboitiz Power amounting to Php 1.49 Mn and Php 899,805, respectively. These investment outlets were approved by the Trust Committee. Likewise, all related parties transactions are conducted on an arm's length basis.

**OUTLOOK AND STRATEGY**

The index significantly weakened by 7.4%, ending the two month bounce by closing at 7,276. Net foreign outflows once again attributed to the weaker market as they exited to the tune of -\$212 Mn. Global investors may see an overhang on the Philippines due to weak Peso, elevated inflation, and rising interest rates both in the US and in the country.

Banks were big losers for the month as foreign selling across the board occurred as they began to raise money through the debt capital markets. Conglomerates were also weighed down by the negative sentiment as they generally serve as proxies of the country's growth prospects. Cement companies also suffered as the DENR was under pressure to look closer at quarrying activities given a recent landslide.
